

3D printing job: 20 files, ≈1,074 g PETG

Hello! These are parts for a student robotics project (Team ZeroDrift, Jabalpur Engineering College). Please print the **test coupon first**; we will check it and confirm before you print the rest.

Settings for every part

Material	PETG. Black for: head, front plate, laser holder. Any colour for the rest (grey preferred).
Layers / nozzle	0.2 mm layers, 0.4 mm nozzle
Walls / top / bottom	4 walls, 5 top, 5 bottom
Infill	40 % gyroid
Supports	None, except inside the motor pocket of 01_base_hub
Orientation	Keep as in the files. Every part is already placed flat on the bed.
Scale	100 %. Please do not rescale: the bearing holes are exact.
Brim	01_base_hub and 16_electronics_box

Fit check. The test coupon has two bearing holes (52 and 42 mm) and two rings (40 and 30 mm). If your printer runs a little big or small, tell us the measured sizes. We can adjust the files, or you can set horizontal expansion.

The parts

	PART / FILE	QTY	SIZE (MM)	PETG	COLOUR	SUPPORTS
	Test coupon 00_test_coupon.stl PRINT THIS FIRST. We check it before the rest.	1	130 × 110 × 10	62 g	Any	None
	Base hub 01_base_hub.stl Biggest part. Use a brim.	1	155 × 114 × 70	195 g	Grey	Only inside the motor pocket
	Leg 02_leg_1, 02_leg_2, 02_leg_3.stl Print 3 (files 02_leg_1, _2, _3 are the same leg).	3	160 × 32 × 26	126 g	Grey	None
	Pan sensor bridge 03_pan_sensor_bridge.stl	1	35 × 42 × 31	11 g	Grey	None
	Magnet cap 04_magnet_cap.stl Tiny: print 2 (one spare).	1	10 × 10 × 6	<1 g	Any	None
	Spindle washer 05_spindle_washer.stl	1	43 × 43 × 3	3 g	Any	None
	Pan turntable 06_pan_turntable.stl Print deck-down (the file is already turned).	1	140 × 140 × 79	142 g	Grey	None
	Right arm 07_arm_right.stl	1	80 × 132 × 12	64 g	Grey	None
	Left arm 08_arm_left.stl	1	80 × 132 × 12	64 g	Grey	None
	Tilt motor stand 09_tilt_motor_plate.stl	1	62 × 48 × 17	19 g	Grey	None

	Tilt sensor bracket 10_tilt_sensor_bracket.stl	1	54 × 30 × 10	8 g	Grey	None
	Head 11_head.stl Black stops stray light.	1	92 × 64 × 58	97 g	Black	None
	Front plate 12_front_plate.stl	1	48 × 64 × 4	13 g	Black	None
	Laser holder 13_laser_holder.stl	1	34 × 22 × 26	9 g	Black	None
	Left trunnion 14_trunnion_left.stl	1	46 × 46 × 21	14 g	Grey	None
	Right trunnion + tilt pulley 15_trunnion_right.stl	1	54 × 54 × 31	31 g	Grey	None
	Electronics box 16_electronics_box.stl Use a brim.	1	170 × 110 × 60	159 g	Dark grey	None
	Box lid 17_electronics_lid.stl	1	170 × 110 × 5	57 g	Dark grey	None
Total		22	≈1,074 g
